

BOAT OWNER MAINTENANCE PACK

Printable Checklists • Logs • Trackers

A practical record-keeping system for recreational boat and pontoon owners.

**Launch day • lake weekends • service • repairs • storage
• winterization**

Includes seasonal checklists, service logs, parts references, expense trackers, trailer records, and safety gear pages.

Schenklemeier&Sons

Start Here: How to Use This Pack

Set this up once, then use it throughout the season.

- 1. Fill in your Boat Profile and Engine + Drive System Profile.
- 2. Use the Spring Pre-Launch Checklist before your first launch.
- 3. Log fuel, service, repairs, parts, and expenses as they happen.
- 4. Review the Season-End page before winter storage.
- 5. Keep receipts, warranty notes, and mechanic/marina contacts together.

Important disclaimer

This pack is an organizational aid only. It is not mechanical, legal, safety, financial, or professional advice. Always follow manufacturer manuals, qualified mechanic guidance, marina rules, and applicable boating requirements.

Boat Profile Sheet

Core boat, insurance, registration, and storage details.

[illegible]

Engine + Drive System Profile

Record part numbers, service intervals, and mechanic information.

Engine type / make / model

Engine serial number

Drive / lower unit details

Oil type / capacity

Oil filter part number

Spark plug part number

Prop size / spare prop

Service interval notes

Preferred mechanic

Notes

Annual Maintenance Calendar

Use this as a seasonal reminder list. Add specific dates as needed.

[illegible]

Spring Pre-Launch Checklist

Complete before the first outing or after storage.

☐ Registration/current documents onboard	☐ Belts/hoses inspected
☐ Drain plug installed	☐ Prop inspected
☐ Hull inspected for cracks or damage	☐ Steering and throttle tested
☐ Battery charged and terminals clean	☐ Life jackets counted and inspected
☐ Bilge pump tested	☐ Fire extinguisher charged
☐ Navigation lights tested	☐ Anchor, lines, and fenders onboard
☐ Fuel level and fuel lines checked	☐ Weather checked
☐ Oil/fluids checked	☐ Trailer tires/lights/bearings checked

Fuel Log

Track fuel cost, location, and engine hours.

[illegible]

Repair + Service Log

Record what happened, who fixed it, and what it cost.

[illegible]

Parts Reference: Filters, Plugs, Anodes + More

When you find a part that works, record the part number here. This saves time later and helps avoid buying the wrong replacement.

Suggested items to record: oil filters, fuel filters, water separator filters, spark plugs, belts, impellers, anodes/zincs, prop hardware, bulbs, fuses, drain plugs, battery type, trailer bearings, trailer bulbs, winch strap, cleaning supplies, and commonly used fasteners.

[illegible]

Parts + Supplies Tracker

Keep quantities, costs, and reorder notes for the parts and supplies you use.

[illegible]

Expense Tracker

Track the true cost of the boating season.

[illegible]

Battery Maintenance Log

Track battery age, voltage checks, charging, and replacement plans.

[illegible]

Trailer Maintenance Log

Record tire, bearing, lighting, strap, winch, and brake maintenance.

[illegible]

Safety Equipment Checklist

Confirm condition, expiration, and location of safety equipment.

[illegible]

Winterization Checklist

Use before long-term storage. Always follow manufacturer and mechanic guidance.

☐ Fuel treated/stabilized	☐ Gear removed or stored properly
☐ Engine flushed/prepped per manual	☐ Cover inspected and secured
☐ Oil changed if applicable	☐ Pest prevention handled
☐ Lower unit checked	☐ Storage location confirmed
☐ Water systems drained	☐ Insurance/storage notes reviewed
☐ Batteries removed or maintained	☐ Next spring needs listed
☐ Interior cleaned and dried	☐ _____
☐ _____	☐ _____
☐ _____	☐ _____

Vendor + Marina Contacts

Keep the people and places you rely on in one spot.

[illegible]

Receipts + Warranty Index

Track where receipts are stored and when warranties expire.

[illegible]

Notes + Lessons Learned

Recurring issues, favorite ramps, setup reminders, and next-season ideas.

[illegible]

Season-End Review

Use before winter storage and before buying next-season supplies.

What worked well this season?

What broke or caused stress?

What cost more than expected?

What should be repaired before spring?

What should be bought before launch?

What should be changed in next year's budget?

Top three next-season priorities
